

# VEHICLE LETTERING AND VINYL

April 2022

## Vehicles - Remarks

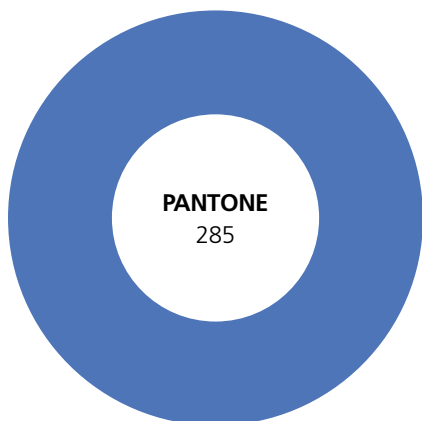

For the lettering of Aqualia's company vehicles, the attached material must be used, whose logos have the precise size, proportions and CMYK colour.

The font used for any text appearing on the lettering will be Frutiger.

A downloadable zip file is available at the bottom of this page, which includes all the necessary files for the lettering of the vehicles, which must be adapted to the appropriate measurements.

The support will preferably be cut vinyl. The image references on the following pages of this PDF must be respected, depending on the vehicle model. **The measurements given in this manual are indicative, the supplier will adjust them precisely, according to his criteria.**

If it is not possible to print in CMYK colour, other colour references are as follows:

**FOUR-COLOUR**

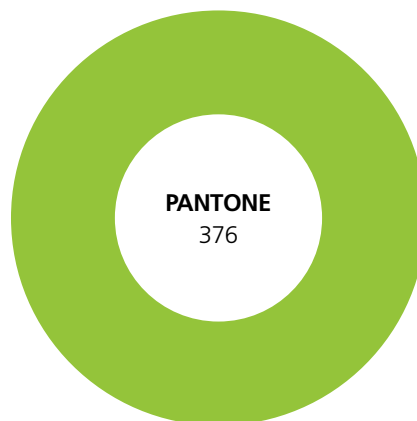

c89 m43 y0 k0

**RAL**

RAL 5015

**LG vinyl**

LC6756-G

**FOUR-COLOUR**

c50 m0 y100 k0

**RAL**

RAL 6018

**LG vinyl**

LC6744-G

Download the necessary files for the lettering [here](#)

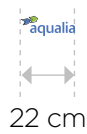

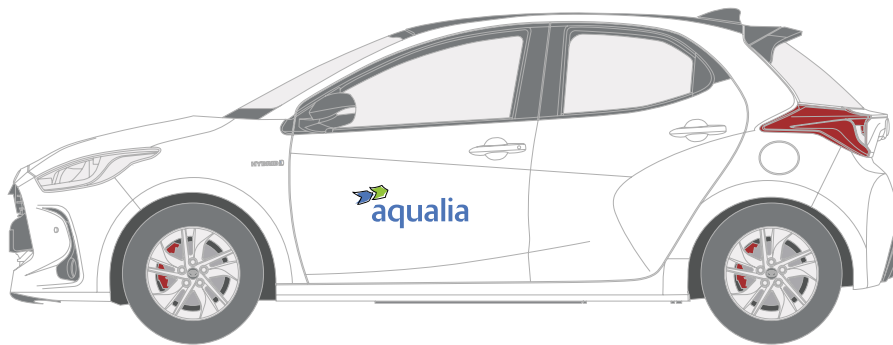

In case of doubt, please contact the Communication and CSR Department.
